

ICS TRAINING

OCTOBER & NOVEMBER 2016

ECUFPA and the SA ICS WORKGROUP, in conjunction with the US FOREST SERVICE and USAID, are pleased to announce that there will be numerous ICS Courses offered in South Africa, during the months of October and November 2016.

Courses attendees will be privileged to have modules presented by USA Facilitators, who have vast amounts of knowledge and experience with the ICS System.

Courses that are being offered are:

24 to 28 October 2016

Cape Town, South Africa

1. Incident Commander
2. Operations Section Chief

1 to 4 November 2016

Stutterheim, South Africa

1. Division \ Group Supervisor
2. ICS for EXECUTIVES

More information to follow soon!!

WHAT IS ICS?

Incident Command System (ICS) is a standardized on-scene emergency management system, specifically designed to provide for the adoption of an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries.

ICS is the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, designed to aid in the management of resources during incidents.
