

SITUATION UNIT LEADER

The Situation Unit collects, processes, and organizes ongoing situation information; prepares situation summaries; and develops projections and forecasts of future events related to the incident. This Unit also prepares maps and gathers and disseminates information and intelligence for use in the Incident Action Plan (IAP). They may also require the expertise of Technical Specialists and Operations and Information Security Specialists.

This course designed to prepare students to accomplish the duties and responsibilities of a Situation Unit Leader (SITL). It will give an overview on how to activate, set up, organize, manage and demobilize a situation unit.

COURSE OUTCOMES

- Demonstrate the knowledge and skills to effectively manage personnel, equipment and supplies for the situation unit.
- Demonstrate knowledge and skills to produce and disseminate timely and accurate products on the incident status.
- Topics include:
 - Products (Maps and ICS forms)
 - Situation Unit process
 - Technology to produce the products
